

Surger -I- nnsbruck

Multidisciplinary Treatment of Primary Liver Tumours

An international educational meeting

The meeting Multidisciplinary Treatment of Primary Liver tumours is accredited by the Ärztekammer (Austrian Medical Association) to provide 18 DFP-Points for physicians.

Thursday, 14th of December 2017

09:00 – 09:50 Registration

09:50 Welcome: M.Maglione, S Stättner + D Öfner (Director)

I) Introduction 10:00 – 11:20

Moderation: O.Farges, H.Zoller

- Anatomy of the liver – is it that easy? (G. Torzilli)
- The fit and the unfit patient – the anaesthetist s perspective (S. Eschertzhuber)
- Liver regeneration – what we need to know (P.Starlinger)
- How much liver is enough – methods for safe liver resections (T. van Gulik)
- + Discussion 15min

hilar CCC

II) Assessment 11:30 – 13:15

Moderation: H.Malik, H.Schwaighofer

- The patient with hilar cholangio carcinoma (M.Maglione) - 15 +classification
- Diagnostic algorithms – what do we need? (P.Schemmer) - 15
- The endoscopists views – ERCP, spy glass and new developments (R.Schöfl) - 20
- Stent – where from and where to? (T. van Gulik) – 20
- Liver assessment in the jaundiced patient (T. Grünberger) - 15
- + Discussion 20min

13:15 – 14:00 Lunch

III) Treatment 14:00 – 15:40

Moderation: G.Toogood, D.Öfner

- Surgery –a tailored or standardised approach (O.Farges) – 25 min
- Postoperative Management (H.Malik) – 15 min
- Complex resections, complex complications (K.Kaczirek) – 20 min
- State of the art systemic therapy of cholangiocarcinoma – (J.Valle) – 20 min

+ *Discussion 20min*

15:40 – 16:00 Coffee Break

IV) Future perspectives 16:00 – 17:20

Moderation: D Fuks, T.Fondevilla

- Future of clinical trials in liver surgery (M.Besselink) – 20min
- Follow up of CCC and HCC patients – where is the evidence (F.Primavesi) – 15 min
- Interventional treatments for the non surgical candidate (Steinle/Schwaighofer) – 15min – RFA, Stents, PDT
- Translational Research – from bench to bedside (P.Starlinger) – 15 min
- + Discussion 15min

Welcome Drink 17:30

19:30 Get together Dinner

Friday, 15th of December

V) Morning introduction 08:30 – 10:20

Moderation: R.Sharma, G.Torzilli

- Laparoscopic liver resection in cirrhosis (D.Fuks) – 20min
- Sticking to the guidelines or pushing the limits – how far can/should we go? (S.Stättner) – 15 min
- Multidisciplinarity – how much do we need? (H.Malik) – 15 min
- Liver (tumour) pathology 2018– from biopsy to molecular pathology (G.Oberhuber) - 15 min
- NASH, CASH, ASH – liver disease predicting cancer (W.Sieghart) – 15 min
- + *Discussion 30min*

10:20 – 10:40 Coffee Break

HCC - + live transmission from stereotactic Intervention's theatre

VI) Assessment 10:40 – 12:30

Moderation: H.Tilg, T. van Gulik

- Epidemiology – Trends, molecular background and implications for the future (W.Mikulits) 20min
- Portal hypertension and other risk factors – the hepatologist's views (H.Zoller) 20min
- Modern imaging, pre- and post treatment (B.Henninger) 20min
- Classifying the patient – the surgeons perspective (T.Fondevila) 20min

+ Discussion 30min

Lunch 12:30 - 13:30

VII) Treatment 13:30 – 15:00

Moderation: P.Schemmer, M.Peck

State of the Art algorithms

- Surgery (G.Toogood) 15min
 - Interventional Radiology (W.Jaschke) 15min
 - Transplantation (S. Schneeberger) 15min
 - Systemic Treatment (A.Djanani) 15min
- + Discussion 30min

Coffee Break: 15:00 – 15:25

VIII) New strategies: 15:30 – 16:50

Moderation: T.Grünberger, W.Sieghart

- ALLPS – relevance in HCC (O.Farges) 15min
- Extending BCLC with sRFA – the Innsbruck experience (R.Bale) 15min
- SIRT and Radiation Oncology (R.Sharma) 15min
- *New kids on the block* in systemic treatments (M.Peck) 15min

+ Discussion 20min

16:50 – 17:00 Closing remarks

M.Maglione, S Stättner
